### TONOPAH THROBS WITH SYMPATHY FOR PARENTS OF GLADYS PERRY

The obsequies of the late Gladys Perry, the seventeen-year-old daughter of Mr. and Mrs. Charles E. Perry, who died Sunday morning under heart-breaking conditions, were attended by the most representative class of citizens ever drawn to the funeral of a child in the history of Nye county. It was not so demonstrative as some others but the mourners showed a touching sympathy with the parents that could not have been more emphatic had their own households been bereft of the choicest treasure.

The ceremonies were conducted from the late residence at Brougher avenue and South street at 10 o'clock when the body was borne to St. Patrick's church, accompanied by a number of the former school mates who were left in town by the summer exodus and the camping trip of the scouts. The automobile hearse was escorted by the following classmates: Vera Parker, Mary McQuillan, Gladys Douglass, Blanche Collins, Mildred Hart, Mary Connors, Paul Swasey, Ogden Monahan, Frank Pearson, Charles Blaker and Roy Clark.

The girls wore communion white with street hats and the boys wore in dark clothes, furnishing a fitting contrast. The pallbearers were chosen from the old associates of the father, as follows: Alex. The home authorities and directors of railways are requested to take corresponding measures."

### SPAIN WILL USE INTERNED SHIPS

(By Associated Press) MADRID, Aug. 21.—It is officially announced that Spain will use interned German vessels to replace Spanish ships sunk by U-boats and continue to observe neutrality. The Spanish ambassador at Berlin has been instructed to so inform the German government.

The announcement said more than 20 per cent of the Spanish merchantmen had been sunk and more than 100 Spanish sailors perished as a result of the U-boat campaign. A considerable number were wounded and numbers were shipwrecked and abandoned.

Ships needed exclusively for government use have been torpedoed without the slightest pretext. The government believes it is unable, without falling in its essential obligations and without setting aside neutrality to defer adoption of measures necessary to guarantee Spanish maritime traffic and protect Spanish crews or passengers. Consequently in the case of any new sinking it will substitute German vessels interned in Spanish ports.

### YANKS CAPTURE TOWN 4 MILES INSIDE GERMANY

GENERAL MARCH REPORTS A MATERIAL GAIN IN THE VOGES

(By Associated Press) WASHINGTON, Aug. 21.—General March told the correspondents today that the length of the battlefield from the North sea to Rheims has been reduced from 250 to 200 miles by allied successes of recent weeks. He said a note had been received with details of the American capture of Frapelle in the Vosges, four miles over the German border.

General March said the success of the enlarged American program was dependent upon the acquisition of adequate shipping. The Emergency Fleet Corporation is constantly swelling the tonnage, but still it is necessary to charter and hire many additional ships.

It was divulged that Brazil has given the United States one ship without compensation for two trips. He said this was the only case of the kind on record so far as known.

General March declined to comment on Associated Press dispatches regarding the British drive as he lacked official details, but he pointed out that the salient between Metteren and Merville, in Flanders, has been bent in and the apex made "unhealthy" for the enemy.

ENEMY SURPRISED AND ADVANCE IS MADE ON NINE-MILE FRONT

(By Associated Press) LONDON, Aug. 21.—The British launched an attack north of the Ancre between Moyenneville and Beaucourt sur Ancre, a distance of eight and a half miles, and penetrated from two to three miles. They captured Courcelles, Achiet la Petit, and reached Achiet le Grand, Moyenneville and Beaucourt. This attack was launched by the British third army under General Byng, without artillery preparation. This completely surprised the enemy. The British yesterday also threw back strong German attacks against the new British positions north and south of Scarpe.

Although the prisoners said the Germans had been expecting attack for a week, it was a tactical surprise. The first advance was made after a brief "crash" bombardment. The first retaliation was light owing to the Germans' difficulty in seeing the British in the haze. Some 200 prisoners and fifty guns were captured in the early rush.

### ONE MILLION UNSKILLED MEN WANTED AT ONCE FOR WAR WORK

Federal Director Charles S. Knight is rapidly completing his organization to handle the important labor campaign which will be on in a few days.

Director Knight estimates that of Nevada's quota of 1550 men probably 500 can be held over in this state, but that at least 1000 of them must actually be sent out to meet the demands of the government. The following telegram received yesterday by Director Lemmon explains itself:

"The big labor jam has come and the final tabulations of labor demands show a present shortage of one million unskilled laborers in war industries with a tremendous additional shortage coming as soon as the new army draft expansion increases the need for supplies. Skilled labor situation equally serious."

"Georgia was notified yesterday that unless the state could furnish the eight million dollar peric acid plant at Brunswick with 5000 laborers at once the entire construction force would be laid off and the plant moved out of Georgia."

"The Midvale steel plant at Coatesville, Penn., has been forced to shut down part of its plant for lack of laborers. Orders are being sent Nevada for men for work at home, others to be sent away. This

repulsed, the British retaining their entire line.

(By Associated Press) PARIS, Aug. 21.—The French continued to advance on the whole front between the Aisne and the Oise. They captured Carlepont and Cuts, besides making additional gains west of Lassigny after sharp fighting. General Mangin's new attack on a 25-kilometer (15 miles) front threatens the fall of Noyon. The attack overcame carefully prepared enemy positions. The German defensive plan was "done completely and the enemy forced to seek new positions."

The Havas News Agency quotes military critics as expressing the belief that General Foch aims to consolidate the front of the armies of General Mangin and General Humbert, operating between the Mats and Oise, thereby probably forcing an extensive enemy withdrawal.
